IZ-C508

IV Stand

“Light, agile and easy to use”

Stable Base

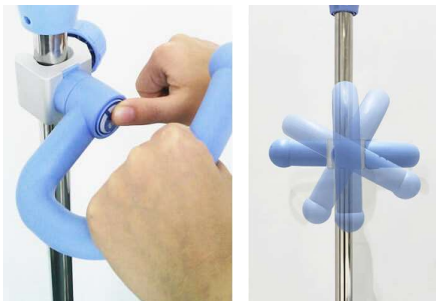

The IV stand has five casters which roll smoothly with a small turning radius. Wheel-covers prevent the casters from slipping into narrow gaps.

A built-in step around the base can be supported with a foot to keep the IV stand from moving, a feature especially helpful during infusion bag replacement.

Adaptable Grip Hold

The grip hold design has a unique shape and can be adjusted to 12 angles allowing adaption for any user.

Quick and Easy Height Adjustment

Rotate the slide stopper to unlock, slide upper pole to desired height and re-rotate to lock in place.

Specifications

Model No.	IZ-C508
Dimensions	Base: 45.3cm High:128.7 to 196.2cm
Product Weight	4.3kg
Material	Pole, Hook: Stainless Steel Base, Grip, Vertical Stopper: Polypropylene
